

### New Beginnings

Winter is over the days were cold,  
And the constant darkness was getting old,  
Although the snow was really fun,  
Now we can finally go for a run,  
Although lockdown came and ruined it all,  
Spring should be better for us all.

As spring begins lambs are born,  
And all of nature starts to reform,  
From the clear blue skies,  
To the beautiful butterflies,  
With the songbirds singing,  
Spring is a wonderful time for new beginnings.

Easter brings us lots of fun,  
All before the day is done,  
With egg hunts all through the day,  
And plenty of time to run and play,  
Spring is a relaxing time,  
For many of us to sit and unwind.

This year has been truly stressful,  
And extremely unsuccessful  
But with covid now at bay,  
We can go enjoy the day,  
A new beginning for us all,  
Let's hope the case numbers continue to fall.
